Administrative Audits:

SFIT is ISO:9001- 2015 certified. Periodical ISO Internal Audits are conducted by a team of internal auditors in each semester and once a year External Audit is conducted by DNVGL the ISO Certification Body.

The ISO audits cover the entire teaching learning process as well administrative functions such as Central Library, Training & Placement, Examination Process, Purchase & Maintenance & Safety, Admission, Faculty Recruitment and Staff Appraisals. The scope of these audits includes targets, goals and objectives of each department/function, the process of achieving of them and assessment attainment as well as continuous improvement.

The audit reports are presented and discussed in the Management Review Meetings held each semester every year and suitable corrective actions against lapses are taken.

Need for Strategic Plan

Engineering knowledge & education is constantly evolving with the innovations in technology. The pressure is on for the need to start courses in new emerging technologies in technical institutes to prepare the students to be in tune with the industry needs.

Strategic Planning Process

The institute's Governing Body with inputs from the Director, Principal and IQAC members gives direction for the achievement of Strategic/Perspective plans to the institute's Director/Principal from time to time.

Strategic Plan Implementation and Monitoring

The Plan for the institute is spearheaded and monitored by the Principal along with the Deans, HODs and IQAC members. The progress and achievement are further monitored by the Governing Council and the Governing Body from time to time.

Strategic Goals

1. To introduce AICTE approved new UG programs in Engineering and PG and PhD programs in the existing branches.
2. To develop industry supported laboratories
3. To set up an Incubation Centre
4. To provide additional training to students for making them industry ready
5. To involve Alumni in mentoring students, conducting training for faculty and students based on the need of the industry
6. To develop Internship and Academic Collaboration with Foreign Universities

7. To strengthen the Tie-Up with Industries for live projects and consultancy services, besides looking for sponsored projects from available government sources
8. To get NBA, NAAC accreditation for quality improvement
9. To be an Autonomous Institute and Deemed University in the long run
10. Add an additional division of seats in the Computer Engineering branch from the academic year 2023-2024.
11. Introduce one new branch in the Emerging Technology viz. Artificial Intelligence & Machine Learning, or Data Science, or Cyber Security from the academic year 2024-2025.
