Report on LinkedIn Workshop for all college students conducted on 27th February 2024

LinkedIn is a premier networking tool for professional where students can interact with senior professional from their chosen field and seek guidance on the technologies they should learn while they are in college. They can also develop robust network with students of other reputed institutions and professionals from various top companies. The LinkedIn in addition to being networking platform is good site for online learning with plethora of courses available in technical domain, business areas and soft skills.

1. **Creating an Impressive Profile:** Tips on crafting a professional profile that highlights skills, experiences, and aspirations to attract potential employers and connections.
2. **Networking Strategies:** Teaching students how to connect with professionals, alumni, and peers to expand their network and gain insights into various industries.
3. **Building a Personal Brand:** Exploring how students can showcase their unique strengths, interests, and expertise through thoughtful content sharing and engagement.
4. **Engaging with Content:** Advising on how to interact with posts, articles, and discussions to stay informed and contribute to relevant conversations.
5. **Researching Companies:** Demonstrating how to research and follow companies of interest, helping students understand organizational cultures and job opportunities.
6. **Job Searching:** Showing students how to effectively use LinkedIn's job search features, saved searches, and job alerts to find relevant positions.
7. **Reaching Out:** Providing guidance on sending personalized connection requests and InMail messages to professionals, alumni, and recruiters.
8. **Internship and Volunteer Opportunities:** Exploring ways to identify and secure valuable internships, volunteer roles, and short-term projects.
9. **Using Recommendations:** Discussing the importance of recommendations and how to request and provide meaningful ones.
10. **LinkedIn Learning and Skill Development:** Introducing students to LinkedIn Learning as a platform for enhancing skills and gaining knowledge relevant to their career goals.
11. **Online Portfolio Integration:** Guidance on integrating external portfolios, projects, and achievements within the LinkedIn profile.
12. **Online Etiquette and Privacy:** Teaching best practices for maintaining professionalism and privacy while using the platform.
13. **Informational Interviews:** Explaining how students can conduct informational interviews through LinkedIn to learn from professionals in their field.
14. **Building Industry Insights:** Utilizing LinkedIn to follow industry influencers, organizations, and groups for staying updated on trends and news.
15. **Showcasing Academic Achievements:** Discussing how students can highlight academic awards, publications, and research on their profiles.
16. **Job Market Insights:** Using LinkedIn's data to understand job market trends, salary ranges, and skill requirements for different roles.

Dear Sir,

Greetings from FACEPrep!

27th February 2024.

As discussed on the call We have been working with LinkedIn, the world's largest professional networking platform to help students leverage LinkedIn in their career-building while at college. As a part of this #**LinkedInCareerKickstarter** program, we offer their LinkedIn Premium services to the students of our partner institutions **completely free of cost.**

We have helped 8L+ students and 2K+ faculties through this program in the previous academic years. Based on the positive feedback from the students on how this program has helped them improve their career prospects and institutions requesting to extend this to the incoming batch, LinkedIn has accepted to extend the timeline of this project.

While **LinkedIn Premium** services offer a host of benefits to students, We see **three major areas** through which the students can directly realize the value

Here's what you can look forward to:

LinkedIn Profile Building Workshops: Led by LinkedIn Certified Trainers, Students will get two hours of insightful workshops on creating impressive LinkedIn profiles and harnessing LinkedIn's power for their career.

Access to 19,000+ Courses: Students will gain free access to a vast library of over 19,000 expert-led courses on LinkedIn Learning, enhancing their professional skills and knowledge.

Certifications and Skill Batches: They can complete the courses to earn course completion certificates and Skill Batches, boosting their professional credentials.

We will also additionally do a **free workshop** for your students on how to leverage LinkedIn to land better careers.

Based on our previous experience this time we would want to prebook the slots to ensure smooth delivery at the time of training. We started the training on the 29th of Jan, we are bringing this to you on early notice so that it would help you get the necessary approvals for training and also collect the student data for coupon distribution.

Please find below the student's onboarding process.

- Step 1: You confirm your interest with the student's list.
- Step 2: You confirm dates for my team to come down to your institution and do the free 2-hour workshop on how students can leverage LinkedIn to land better careers. The sessions will be conducted in computer labs. One trainer will be able to handle 3 batches throughout the day. Trainers/Number of days will be decided based on the total number of students
- Step 3: If you are not able to give us the final dates, we request you provide us with tentative dates on which we can do this onboarding. The students are to be onboarded before 15th March 2024.
- Step 4: Students will be onboarded on LinkedIn and given an orientation on how to access LinkedIn and LinkedIn Learning
